ADDITIONAL INFORMATION

REKINDLE THE WORLD WITH POPE FRANCIS

The goal of the international Masterclass project, created in collaboration with the Vatican, is to promote a new model of a relationship that serves a human being, opens the door to another, and reaches a higher level of consciousness. We will meet in the Vatican and around the world, with prominent figures in science, business, sport and culture, who will share with us inspiration on how to change ourselves and the world for the better.

Many people at different stages of their lives have met people who empowered them to achieve their goals in life.

Inspired by modern science, the 15 principles of Pope Francis' leadership, and universal values, we plan to systematically help and develop leaders in areas related to meeting the challenges of the modern world.

We invite you to participate in the LEADERSHIP WITH THE POPE program, all those who grew up to become a selfless gift to others. Our goal is to offer, within three years, free training in the spirit of Pope Francis' 15 leadership principles to MILLIONS OF POTENTIAL YOUNG LEADERS, especially from underdeveloped countries, who will, in turn, impart their knowledge and experience to other people and new generations.

We will start with **25 NATIONAL COORDINATORS FROM EUROPE AND THE WORLD**, who will be able to share their knowledge and experience with another 50 people. By means of personal meetings, we will reach 17 thousand people per weekend. In addition, the program will continue on-line.

The initiative was inspired by:

The Pontifical Council for Culture, one of the departments of the Roman Curia operating at the Apostolic See. The Council deals with the Church's relations with the worlds of culture and science, promoting especially the dialogue between the various aspects of the modern world. Since 2007, Cardinal Gianfranco Ravasi has been the President of the Council.

THE FOUNDATION OF THE NATIONAL DEVELOPMENT CENTER (CTN), whose activities over the past 15 years have involved prof. Krzysztof Zanussi, prof. Leszek Kotakowski, and Jan Nowak-Jeziorański. CTN aims to help people, especially the young, to fulfill their potential. In the years 2009-2014, the Foundation was the organizer of the CAROUSEL OF COOLTURE, which in six years has visited nearly 800 thousand people. The most famous media event of the Foundation, reported by 56 TV stations around the world, was the performance of breakdancers in front of John Paul II.
